Mr. J. E. Richards  
Ohio Department of Health  
450 East Town Street  
Post Office Box 118  
Columbus, Ohio 43216

Dear Mr. Richards:

We received a letter from William L. West, Region V Director of the Environmental Protection Agency, dated June 16, 1972, concerning the quality of liquid effluent discharged from our Cyanamid Plant to the Marietta Sewage Treatment Plant. A copy of the letter was sent to you.

As you know, we are under contract with the City of Marietta to discharge our waste water to their Treatment Plant. We discussed the subject with the City. There was agreement that no difficulty exists in handling our waste and to their knowledge no State or ORSANCO regulations are being violated.

We maintain very close liaison with the City. We have assured them that if problems arise in their treating our effluent, reasonable corrective measures will be taken promptly.

The reply to Mr. West's letter is addressed to you with the expectation that you will clarify any misunderstanding that exists concerning Cyanamid's relationship with the City of Marietta.

Very truly yours,

AMERICAN CYANAMID COMPANY

R. E. Leach  
Plant Manager
